I. Data and Access

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP], test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

II. About This School

School Description and Mission Statement (School Year 2010-11)

This section provides information about the school, its programs and its goals.

Yolo Education Center provides the following alternative programs: Yolo High School, Yolo Opportunity School and Washington Adult Education School. The school provides a personalized alternative education program so that the academic needs and life goals of our students will be met, their individual self worth will be realized and, with personal effort and staff assistance, a diploma from Washington Unified School District will be earned.

In order to graduate and receive a diploma from Yolo Education Center, each student must meet district graduation requirements of 180 credits and pass the California High School Exit Exam.

The vision of the staff is that each student develop a positive self concept as a learner and a person, as well as develop the ability to function at higher cognitive levels in all subjects. It is our goal that students will apply all the skills of communication, problem solving, decision making and personal accountability to their studies and their lives, as well as demonstrate a concern for others and the environment.

At Yolo High School students are assessed and an individualized program is developed based on student needs and abilities. There is a strong relationship between students and staff at Yolo High School and teachers employ strategies based on research and theory into practice in order to engage students and enhance learning.

The students demonstrate their sense of school pride and respect by working together to maintain a positive, friendly working environment. The school maintains a safe, clean and orderly place that nurtures learning.

Opportunities for Parental Involvement (School Year 2010-11)

This section provides information about opportunities for parents to become involved with school activities, including contact information pertaining to organized opportunities for parental involvement.

Parents are encouraged to work with the schools of the education center and to be a positive influence in their children's education.

Participation by parents has often been minimal at Yolo and now the school is developing a plan to reach out to the community to encourage parental involvement in the education process. The parents involved with school council are reliable and diligent. However, they are but a small percentage.

- The high school program prepares students to either receive a high school diploma or return to a comprehensive high school.

The school also offers support classes for English and mathematics for students who need help with skills in the areas. Also, students are encouraged to take CAHSEE prep classes to prepare to pass the Exit Exam at the earliest opportunity. IX. Student Performance

Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key components, including the California Standards Tests (CSTs); the California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA). The assessments under the STAR program show how well students are doing in relation to the state content standards. The CSTs include English-language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and nine through eleven. The CAPA includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations. The CMA is an alternate assessment that is based on modified achievement standards in ELA for grades three through nine, mathematics for grades three through seven and Algebra I and science in grades five, eight, and ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations. On each of these assessments, student scores are reported as performance levels. Detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, can be found on the CDE Standardized Testing and Reporting (STAR) Results Web site at <http://star.cde.ca.gov>. Program information regarding the STAR Program can be found in the Explaining 2009 STAR Program Summary Results to the Public guide at <http://www.cde.ca.gov/ta/tg/sr/documents/pkt5intrpts09.pdf>. Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

California High School Exit Examination

The California High School Exit Examination (CAHSEE) is primarily used as a graduation requirement. However, the grade ten results of this exam are also used to establish the percentages of students at three proficiency levels (not proficient, proficient, or advanced) in ELA and mathematics in order to compute Adequate Yearly Progress (AYP) designations as required by the federal NCLB Act of 2001. Detailed information regarding CAHSEE results can be found at the CDE California High School Exit Examination (CAHSEE) Web site at <http://cahsee.cde.ca.gov/>. Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

The California Physical Fitness Test is administered to students in grades five, seven, and nine only. This table displays by grade level the percent of students meeting the fitness standards for the most recent testing period. Detailed information regarding this test, and comparisons of a school's test results to the district and state levels, may be found on the CDE Physical Fitness Testing Web page at <http://www.cde.ca.gov/ta/tg/pf/>. Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

X. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the CDE Academic Performance Index (API) Web page at <http://www.cde.ca.gov/ta/ac/ap/>.

Academic Performance Index Ranks - Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

Adequate Yearly Progress

The federal Elementary and Secondary Education Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Adequate Yearly Progress (AYP) Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

Adequate Yearly Progress Overall and by Criteria (School Year 2010-11)

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the six AYP criteria described above.

Federal Intervention Program (School Year 2011-12)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the CDE Adequate Yearly Progress (AYP) Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

XI. School Completion and Postsecondary Preparation

Admission Requirements for California Public Universities

University of California

Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements please visit the General Admissions Information Web page at <http://www.universityofcalifornia.edu/admissions/general.html>.

California State University

Admission requirements for the California State University (CSU) use three factors to determine eligibility. They are specific high school courses; grades in specified courses and test scores; and graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses utilize local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For general admissions requirements please visit the California State University Web page at <http://www.calstate.edu/SAS/admreq.shtml>.

Dropout Rate and Graduation Rate

This table displays the school's one-year dropout rates and graduation rates for the most recent three-year period for which data are available. For comparison purposes, data are also provided at the district and state levels. Detailed information about dropout rates and graduation rates can be found on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/>.

Career Technical Education Programs (School Year 2010-11)

This section provides information about the Career Technical Education (CTE) programs and lists programs offered by the school district that are aligned to the model curriculum standards.
